To Whom it May Concern:

As you begin to think about non-profit organizations that support the Seward Community with a long tradition of helping both the city of Seward and Seward Public Schools the Seward Community Foundation would be at the top of the list. This organization was developed to enhance the learning and teaching of students SPS serves along with supporting projects that help make the city of Seward a top ten place to live within the great state of Nebraska.

Seward Public Schools is fortunate to have the support of the Seward Community Foundation. This foundation provides financial assistance to many of the great projects, programs, and equipment to ensure our students are able to flourish within our district. Financial support for the new elementary playground, art kiln, robotics for our high school career and technical classes, a donation to the baseball/softball turf project, and paying for the On to College Program for all of our Seward High Juniors are just a few of the great things the Seward Community Foundation has supported over the last few years. The impact of these programs, projects, and equipment on students is not only supporting students today but also well into the future.

It was without hesitation that I recommend supporting the Seward Community Foundation as they support the students and staff in Seward Public Schools.

Sincerely,

A handwritten signature in blue ink that reads "Dr. Josh Fields". The signature is written in a cursive style.

Dr. Josh Fields
Superintendent
